## Our Secured Services

### CONSULTING

Our team of consultants guide for smart seamless interactions, ensures that every process is fully automated and paperless, and everyone is ready for future challenges. Apart from standard consulting practices Micropro has been providing a solutions to the problems of the customers. We are not into traditional consulting but when in a particular customer or business situation a problem is faced we have the people who have been providing solutions to the business problems after thorough study. Our area of expertise has been the large scale enterprises.

### CLOUD

Micropro offers all its solutions over all the clouds. Our development has been on an open technology stack which enables customers to choose the cloud provider of their choice like Azure, AWS, Oracle or any other. This helps our clients to avoid immediate CAPEX expenses, expansion based scalability.

### INFRASTRUCTURE MANAGEMENT SERVICES

IT Infrastructure is the backbone of any organization for business continuity and business growth. Yet, the IT Infrastructure budget and costs are often scrutinized to achieve optimization and cost reductions.

In such a challenging environment, Infrastructure Management enables businesses to offload their IT operations to a specialist service provider like Micropro. As a preferred partner for outsourcing IT support requirements, Micropro provides high quality, end-to-end IT infrastructure solutions that focuses on reducing TCO, improving IT infrastructure performance and increasing flexibility, to keep up with evolving business demand and changing needs.
